

Large reindeer outline

Trace onto felt or card, colour it in, or cut it out for a window. Solid lines are cut lines.

Stand-up reindeer

Print on card stock. Cut the solid line, keep the stand attached and fold it back on the dashed line.

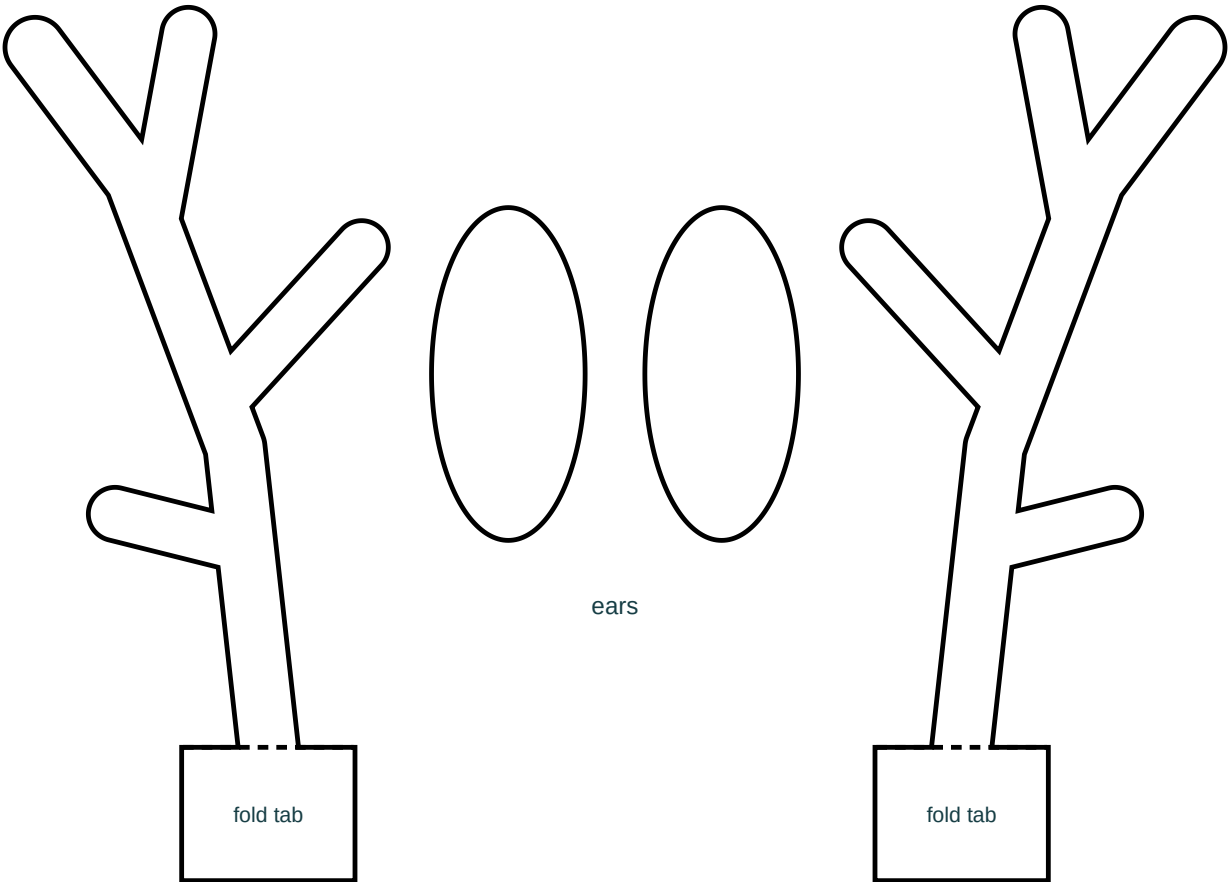

Both reindeer use the same outline. Colour them before cutting, then write a guest name on the strip under the hooves to use them as place cards.

Reindeer antler headband

Cut both strips, tape them into a band that fits, then glue the antlers and ears to the front.

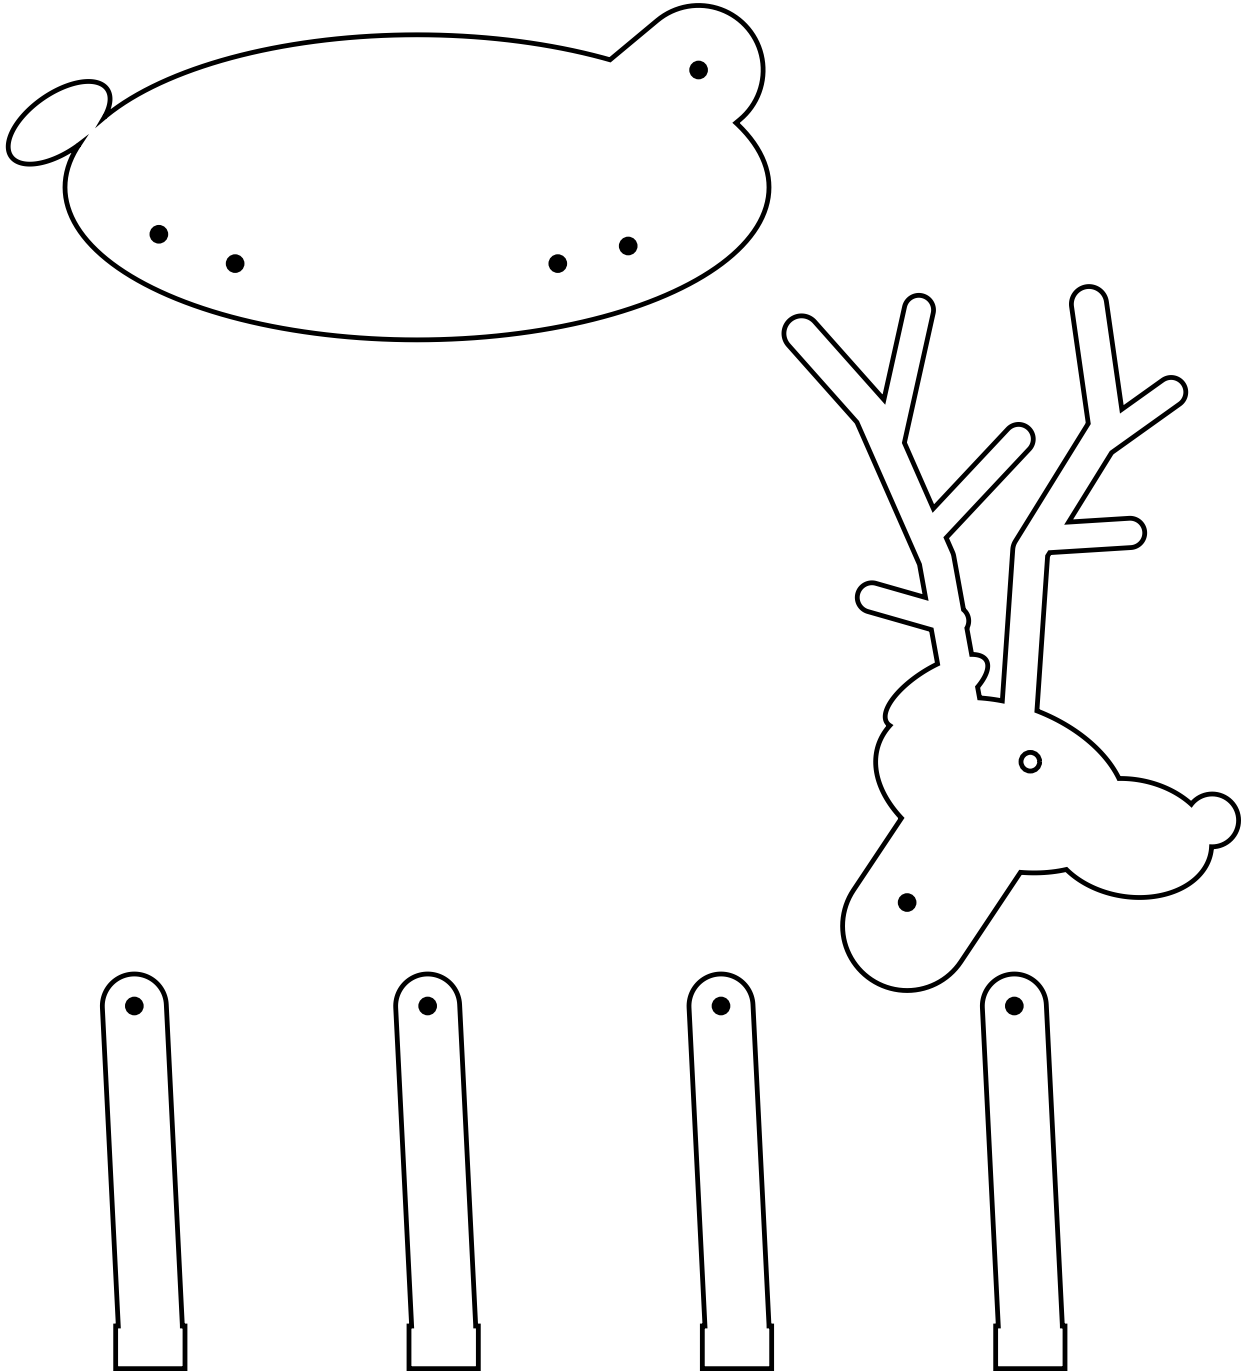

headband strip - overlap and tape the ends

headband strip - overlap and tape the ends

Jointed reindeer

Cut out the pieces, then join head and legs to the body with paper fasteners at the dots.

Five joints: head to neck, and each leg to the body. Match the dots before pushing a fastener through.
